## **PLANTING SERVICE**

Hahn Nursery offers a planting service for all our nursery plants. We will professionally plant in accordance with the American Nurserymen's Association standards.

The area to be planted should be free of all obstructions, such as plumbing, electric or phone lines, etc. If you have old shrubs or roots at the site of planting, removal needs to be taken care of before the scheduling of a planting job. We can provide you with the name of a professional tree and shrub remover.

Plant material planted by us is guaranteed for one full year from date planted.

Planting charge is approximately 70% of the price of each plant. There will be a delivery charge on the total order.
